
Healing Journeys

Video Testimonies

The heart of Andrew Wommack Ministries is to see people set free from sickness, disease, and pain. We regularly receive testimonies of how God has healed people of incurable diseases, life-threatening injuries, chronic illnesses, and everything in between.

We have filmed dozens (47 total) of testimonies of people whose lives have been profoundly changed by the power and Word of God. See the evidence of God working miracles in people's lives who were experiencing all kinds of physical and emotional sicknesses. There are five testimonies of people who have received healing from cancer, as well as other diseases such as multiple sclerosis, kidney failure, Crohn's disease, fibromyalgia, yellow fever, sepsis, and many others.

All of these people have received their healing recently, but it was 2,000 years ago that the price was paid. Jesus hasn't taken a single stripe on His back since He went to the cross. By His stripes we were healed. It has already been accomplished, and countless multitudes continue to receive healing today.
